

STEVE'S SMILE STORY

"It just lifts you completely.
You feel 100% better about yourself."

The start of the year can be pretty low and slow for many of us.

So we simply wanted to share an uplifting smile story with you.

A story of hope and in Steve's words a "transformation." Steve took a leap of faith and invested in himself, he trusted in us and he's thrilled with the results.

Before Steve visited Hampshire Dentists...

When Steve first visited us, his teeth were letting him down. In his words, he "had lost hope." Steve was struggling to eat the foods he enjoyed. He felt self conscious how his teeth looked and also how they felt.

During Steve's initial consultation, we addressed his concerns and discussed suitability of treatments available. We proposed solutions, costs and timescales.

Steve proceeded with having a Dental Implant retained Bridge.

"I walked out elated knowing I was going to get something decent."

During treatment with Hampshire Dentists Steve said he:

- “
- was given a number of options
 - was given hope
 - never felt any pain, [despite having] full extractions
 - had never experienced such a professional set up.
- ”

"Rob kept asking me if I was comfortable - he kept reassuring me."

After treatment: Steve's Smile Makeover Results
(how we transformed Steve's smile....)

**We're thrilled that Steve is so happy with his smile.
He told us:**

- “
- It has taken away the anxiety
 - It has built my confidence
 - It has enabled me to smile in public
 - It has made me really happy with my appearance.
- ”
